RE: Owen Sound Chamber of Commerce

Membership with the Owen Sound Chamber of Commerce over the last year has proven to be an inspiring and beneficial experience for Kuhl Machine Shop. Our goal to be a successful and socially responsible organization in this economy lead us to investigate various groups that would assist us in supporting all of our goals.

Our relationship with the Chamber of Commerce, since becoming a member in 2009, has offered KMS opportunities to grow, as well as share our success with newer businesses in the area. It was our pleasure to receive the Business of the Year Award for fewer than 25 employees in 2009.

Participation has provided us with exposure and network opportunities with other businesses that we would not normally come in contact with. We are now part of the unique and successful business environment in this area.

As the President of Kuhl Machine Shop, I recommend others become involved in the Owen Sound Chamber of Commerce. We are all responsible for making our communities successful, and working together to meet the same goals. By supporting the Owen Sound Chamber of Commerce, we support each other, and our community.

Thank you and Kind Regards,

Dave Kuhl, President

Kuhl Machine Shop Ltd.
